Health and Wellness Activity
COVID-19 Resources

May 8, 2020

Mental health is just as important as physical health.

This week’s recommended Health and Wellness Activity:
5-minute Meditation

National Nurses Week

Tips to Stay Motivated During Quarantine
source: https://catalystsport.com/blog/t13206/5-Easy-Ways-to-Stay-Motivated-During-the-Quarantine

1 Build a routine
Make a daily schedule for yourself with the times you want to wake up and go to bed. Try to stay as consistent as possible with the times you eat your meals and set aside time for different projects, like cleaning in the morning and working on the computer in the afternoon.

2 Make a few goals
Think about some things you’d like to accomplish - whether it’s losing a few pounds or finally painting your kitchen. It is helpful to have something to look forward to every day and to work on, so your life feels less like “Groundhog Day” and more like you’re accomplishing something.

3 Ask for support
Tell a couple of your friends what you’re working on and ask if they can keep you accountable, or check in with you. Do the same for them. We are all in this together and people are more supportive than ever in this time.
Six Daily Questions to Ask Yourself in Quarantine

1. What am I grateful for today?
2. Who am I checking in on, or connecting with, today?
3. What expectations of “normal” am I letting go of today?
4. How am I getting outside today?
5. How am I moving my body today?
6. What beauty am I creating, cultivating, or inviting in today?
