Minority Fellowship Program Virtual Intensive Summer Institute

August 19 – 21, 2021

THEME

“Behavioral Health Equity is the right to access quality health care for all populations regardless of the individual’s race, ethnicity, gender, socioeconomic status, sexual orientation, or geographical location. This includes access to prevention, treatment, and recovery services for mental and substance use disorders. Advancing [health equity](#) involves ensuring that everyone has a fair and just opportunity to be as healthy as possible. This also applies to behavioral health. In conjunction with quality services, this involves addressing social determinants, such as employment and housing stability, insurance status, proximity to services, culturally responsive care – all of which have an impact on behavioral health outcomes.” - SAMHSA Office of Behavioral Health Equity (OBHE), 4, 21, 2020

To accomplish this, the MFP/ANA collaborates with SAMHSA, ANA, Universities, and other stakeholders in preparing current and rising psychiatric nurse leaders who are committed to effecting change in critical behavioral health policy, improvements to access to quality behavioral health care, prevention, treatment, and recovery with the goal of eliminating behavioral health disparities and achieving behavioral health equity in ethnic and racial minority and underrepresented groups. Thus, over the course of the next three-days, the 2021 Virtual Intensive Summer Institute educational offerings will focus on Advancing Behavioral Health Equity among Ethnic and Racial Minority and Indigenous Populations with keynote addresses, panel presentations, and other learning modalities presented by some of the Nation’s most widely-known champions of health equity, including alumni of the SAMHSA Minority Fellowship Program at ANA.

LEARNING OBJECTIVES

At the end of the 2021 Virtual Intensive Summer Institute, Fellows will be able to:

- 1** Demonstrate knowledge of behavioral health equity including the history of behavioral inequalities and social determinants of health and racism.
- 2** Describe how to engage in mental health policy, clinical practice, research, and community engagement activities to advance behavioral health equity.
- 3** Identify at least two methods or strategies to decrease health disparities and advance behavioral health equity among ethnic and racial minority and indigenous populations.
- 4** Describe the purpose of the Diversity, Equity, and Inclusion role in dismantling educational inequities in selected colleges and schools of nursing.
- 5** Identify the level of impact of a COVID-19 testing and vaccination site and mobile testing and vaccination unit serving minority and other underserved populations.
